

*1<sup>st</sup> Choice for Customers, Employees, Suppliers and a valued part of the Community*

## **Ridgeon Group Environmental Policy**

“We aim to provide our products and services to our customers in a sustainable way by working closely with our suppliers, employees and the communities in which we work, to minimise our impact on the environment”

We will achieve this aim by;

- Complying with all relevant environmental legislation, regulations, codes of practice and industry guidelines
- Assessing the parts of our business that impact upon the environment and setting targets for continual improvement
- Preventing pollution, reducing waste and ensuring wherever practicable that measures are taken to protect and preserve natural habitats, flora and fauna
- Working in partnership with our local communities to improve the environment and encourage staff to participate in environmental projects
- Working in partnership with our suppliers to increase environmental awareness within the supply chain
- Ensuring all employees at all levels in the company have sufficient awareness, training and information to enable fulfilment of this policy
- Offering our customers the right advice on sustainable, energy and water efficient products and supplying products to fulfil their needs
- Achieving and maintaining accreditation to the international environmental management standard ISO14001

This policy will be published and communicated to demonstrate commitment and increase understanding. It will be reviewed annually.

The Board of Directors fully support the implementation of this environmental policy.

Signed

Angela Rushforth  
Managing Director
